family makeup mom wife shed mirror holiday

make functionalprint mesh clear medium piece
bedroom cold lipgloss lipstick great long
multifunction everyone dining for function
multifunctional forward other living narrow down
friend marathon made short with toiletries brushes
up girlfriend grandma entry intricate dug lover
boyfriend husband continuous significant subtle
anyone familhy backward vibrant toiletry dinig

Can be printed with any Prusa you like. Will be printing mine in transparent PETG when it comes in, but I suppose any filament will do. Keep in mind the natural wear and tear over time, and water contact if using near a sink. Longer print but a nice useful result!

If you or someone you know needs a custom design, for any type of 3D object, send me a message!
