### Summary

This is a remix of the Dinosaur night light. I remixed the original Dino 1 so I could mount my Wemos inside.

This is a remix of the [Dinosaur Nightlight on Thingiverse](#).

I remixed the original Dino 1 so I could mount my Wemos/Lolin D1 mini inside it with a DC power supply jack barrel.

The Wemos D1 mini can be mounted and screwed using 2 M2x5 screws.

For power supply the mount is forseen for a barrel like this: <https://www.amazon.com/DC-Barrel-Power-Jack-Connector/dp/B06XHQ25F9>  
It fits in tight, however I applied some glue to it, otherwise when you close up the dinosaur and plug in the DC power supply you sometimes might push it slightly back.
