## Summary

A simple corner shelf I designed to hold small items.

Tags: [shelf](#) [small](#) [corner](#)

Specifically designed for a battery powered air freshener but would be good for small display items or maybe a security camera. Mounts to a corner wall using double-sided tape. I recommend silicone Nano gel tape as it can be removed without leaving any residue and is plenty strong enough for small items. It may be better to use NoMoreNails or similar if you put anything heavy on it.
