Remix based on the Kirby Fume Extractor by jocoquemx to use a 9v and a 60x60mm fan.

here the amazon links to the parts I used:

[switch](#)

[9V Batterie Clip](#)

[12V 60x60 fan](#)

[Activated carbon filter sponge](#) just cut it to a 60x60 rectangle

squeeze all the stuff into the kirby make a little bit of soldering and Voila a 9v Fume Extractor to go.

And this filament color will get you the kirby feeling:

ICE FILAMENTS Precious Pink

Enjoy
