This is davebob3's Silly Little Turkey model which he was nice enough to put the OpenSCAD files of up for all of us to modify. Thanks!

This turkey has had it's nose un-pointed for less eye poking.

It's also re-rendered. For some reason the original STL was causing Slic3r to blow out without the face slicing. So that's fixed through a simple OpenSCAD re-export.

The modified short-nosed turkey OpenSCAD file's included.
