Summary

These are two heart pieces for keychain with your lithophane photo on them

[Art & Design](#) > [Other Art & Designs](#)

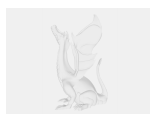

Tags: [lithophane](#) [3dprinting](#) [blender](#) [valentine](#)

You will need your lithophane photo which you can make with the website 3dp rocks. Then you can use the Blender file to cut the heart shape out of it and add the keyhole enforcement. The steps to follow is in the video.

You can print them vertically to get better result.

Happy Valentine!
