A sharp pointy device for scratching hard-to-reach body regions.

The weird spot in the photo is the censored name of the person that asked me to make this.

### Print settings:

- 0.15mm layer
- at least 15% infill (i suggest 25%+ for a sturdier handle)
- supports on the build plate only (needed for the grip on the handle)
- 3 perimeters
- PLA, PETG or any other non-flexible material you like
