Summary

This is a simple basketball themed bag tag or key ring fob.

[Sports & Outdoor](#) > [Indoor Sports](#)

Tags: [bag](#) [tag](#) [keyring](#) [zipper](#) [basketball](#)

This is a simple tag that can be used as a zipper bag tag or a keyring fob. The stl does not contain any name so that you can easily import it to your favorite modeling program to add your team name, childs name etc.

Using your slicer of choice you can add multiple colors at the transition layer from the solid to the outlines as seen in the pictures. For those that are using multicolor addons it is even easier.

The print was printed on a Prusa MKS3+:

Print instructions

Recommended Print Settings
