---

I bought an Eve Door & Window HomeKit contact sensor. It comes with a few spacers to align the smaller with the larger part of the sensor, but unfortunately they didn't add up to enough distance for our particular door.

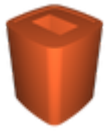

This part provides a 20mm spacer block. If you need a different size, you could download and update the Fusion 360 model linked below.

## How I Designed This

Designed in Fusion 360. You can view and download the model here:
