This is a case for the [USB tester combo board](#) by [Fried Circuits](#). That boards comes as a bare PCB and when you don't need all the test points, this case packages it up nicely.

If you don't have a printer that can print this properly (FDM might not work), you can order one at <https://www.shapeways.com/shops/liyanage>. The model is offered there with no markup on top of the Shapeways price.
