### Summary

This is an iPad wall mount that is sized to fit a large 3M command strip entirely behind the mount.

[Household](#) > [Office](#)

Tags: [wall](#) [mount](#) [wallmount](#) [ipad](#) [apple](#)

This wall mount was designed around three main criteria:

1. Completely hide a large 3M strip
2. Allow the user to use the camera and home button even with a case that accommodates the apple pencil
3. Allow the print to be made without supports

I printed this in Jessie PLA at .25mm layer height, 0% infill, and a minimum of 5 layer wall thickness.
