All my photos are REAL and show an actual 3D-printed figure photographed by me.

If you're interested in the **commercial use** of my models, or if you simply like my work and want to **support me**, please check out my **Patreon at https://patreon.com/29flo** and subscribe to a membership tier that suits you. Thank you!

[Suggested Print Setup]
Nozzle: 0.4mm (**recommended0.2mm** nozzle or **Resin Print**)
Layer Height: 0.12mm (You can adjust the layer height based on how much detail you want)
Infill: 30% or more for nice weight
Wall loops: 3
Supports: Tree (auto)

Printed with: Bambu Lab PLA Matte Charcoal - Painted with Metallic Paint

As always!
The key to printing my figurines is having good adhesion to the build plate. I use CryoGrip Pro Frostbite for printing, which provides excellent grip, ensuring that every figurine prints successfully every time. I mainly use filaments from Bambu and have no issues with them either. If you have a different setup, make sure to focus on build plate adhesion, use high-quality dry filament, and everything should be fine.
