Summary

I added a hole for thread to the original 3D scan of the witcher by Bravach.

[World & Scans](#) > [People](#)

I added a hole for thread to the original 3D scan of the witcher by Bravach.

Instructions

Printed using white PLA in a Velleman Vertex K8400.

Sliced using CuraEngine at 0.2mm layer height and 10% infill.

I also added a circular hole for a thread to be put through.

The print came out quite well with a few surface defects which will be insignificant when it is filed and painted.
