[jello](#)

I made this box to store my array of TBS Jello Guards (ND2, ND4, ND8, ND16, ND32) while I don't use them in the field or on my trip.

It should be printed from flexible material (TPU) so the upper and bottom cover can be snapped together.

I hope you like it, happy flying!

Feedback is important!

I spend countless hours perfecting and testing my designs and I would love to hear your feedback too. If you like my designs I appreciate a like or a comment. Please post a photo if you print this.

Donations

I am open to any kind of donation if you want to support me :)
