[UPDATE July 19, 2024]: Added a horizontal version.

In my job I have always to carry my company badge and Yubikey around, but I don't like to have them dangling separatly on my lanyard. So I designed a badgeholder, which can safely hold my badge as well as my Yubikey in one. The Yubikey is stored in a separate compartment under the badge.

Hope you like it and find it useful.

**If you like my stuff then please leave a and post a make. Thanks!**
