Summary

For my soapes the original box was too large (length), so I modified it a bit.

[Household](#) > [Bathroom](#)

Tags: [holder](#) [seifenschale](#) [soap](#) [soapholder](#)

I like the original desing, especially the filler lock, but for my soapes the box was too large (length), so I modified it a bit:

- I reduced the length of the box to 110mm and the filler was changed accordingly.
- I placed the filler even lower (4mm from the inner bottom of the box) and
- I reduced the thickness of the filler to 3mm (enough for my requirements)
- The bottom of my box is without the non-skip tread of the original design
