

VESA 75 mount with 1" Ball

[VIEW IN BROWSER](#)

updated 12. 2. 2022 | published 12. 2. 2022

Summary

VESA 75 mm mount for small monitors. Ball diameter is 24.6mm which matches the "one inch" RAM mount ball.

VESA 75 mm with 24.6 mm ball. This will work with RAM or 67 Designs mounts that use a 1" ball. I have considered covering the ball with a thin heatshrink to give it some compliance, but haven't tried it yet.

In PrusaSlicer, I added a cylinder modifier slightly bigger than the neck, and added a 100% concentric infill to strengthen the weak point. I printed the rest with 20% infill.

This is my first published model. I hope to provide more!
