updated 12. 2. 2022 | published 12. 2. 2022

## Summary

Upgraded mechanism for much better closing and opening.

Tags: [upgrade](#) [door](#) [foldable](#) [sliding](#)

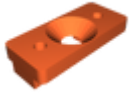

Original sliding mechanism was based only on moving one plastic at another plastic...

It was moving terribly bad. Now with this upgrade the doors are moving at another level ;)

Material needed:

- M3 screew rod
- M3 nut inserts
- Some small screws
- Bearing 8x3x3
