Summary

Double Holder Brace for Filler Spool Holders designed to be attached timber batten.

[3D Printers](#) > [3D Printers - Upgrades](#)

Remix of Filler two wall mounts to add an arm so that I could hang two spools off a timber batten

- Bracket to screw in to timber is 70H x 38W x 40D in mm.
- To be used with the Filler (<https://www.thingiverse.com/thing:3020026>) hold guide and hold rollers.
- Printed with supports on the horizontal face

This remix is based on

Filler - The Customizable Filament Holder that fills your printer!
