Summary

Just moved the bottom slot down by 1.9mm - Credits to vertigo235 for original design

[3D Printers](#) > [Accessories](#)

vertigo235's jig is designed for MK3S (PTFE= 44.2mm) and MK3S+ PTFE is 1.9mm shorter (42.3mm).

I simply moved the bottom slot down by 1.9mm, now caters for MK3S+ & BEAR, as per original design.
