updated 8. 8. 2022 | published 13. 2. 2022

### Summary

I've tried to print original with various settings, but Flashprint kept making wierd paths. So I've fixed it in Wrap.

---

[Art & Design](#) > [Sculptures](#)

---

As this is vase mode, I'd suggest extrusion width to layer height ratio of at least 5, possibly even more.

My settings (for ABS on Creator 3) were:

245/10, 0.8mm path (0.4mm nozzle) and 0.15mm layer.

On the Photo:

White: Rosa PC+PTFE

Transparent: Noctuo ABS-MMA

Black: Max Filaments ABS

Olive: Max Filaments ABS Industrial
