Summary

Breville/Sage Barista Express jig for pulling two single-shot Bodum double-walled glass cups

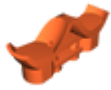

[Household](#) > [Kitchen](#)

Tags: [espresso](#) [coffee](#) [functionalprint](#) [breville](#) [bodum](#)

A simple jig with drainage holes specifically for Breville (aka Sage) Barista Express espresso machines to hold Bodum blown-glass espresso cups just so for making a clean, easy shots every time.

Designed to be printed on its back, so that the surface that faces the back wall of the espresso machine lies on the bed; you'll have to rotate the STL in your slicer.
