### Summary

One ring to unite them all, not to have to search for them, and bind them to the extruder forever.

One ring to unite them all, not to have to search for them, and bind them to the extruder forever. 😂

### Update

I had a small design failure so please use V1.1

### Print instructions

Simple print!

No support needed!

PLA and PETG gives a very good results on 0.15mm and 10% Infill, of course with original Prusament!

**Happy Printing!!!**
