Notes

Unable to load file "LOVE_0.2mm_PLA_MINI_41s.gcode"!! This is the heart that appears in the model.

I loaded the "Bookmark-I-Heart-YOU.3mf" file to be able to create the "LOVE_0.2mm_PLA_MINI_41s.gcode" file.

How to print...

1. First Print the Heart in red (one layer 0.2mm / without skirt)
2. Second print the text "I YOU" in white (one layer 0.2 / without skirt)
3. Third print of the bookmark (first layer 0.3mm)
