I wanted a nice desk organizer that had space for flash drives, Micro and full-sized SD cards, writing utensils, and a phone stand. I also added in, as a bonus, an amplifier to the bottom phone speakers. I also added a cable for routing the built-in phone charger! It is a great addition to any maker's desk.

There are 3 variations to this print

1. Everything - Amp, back organizer, and side organizer
2. Slim - Amp and back organizer
3. Barebones - Back organizer only

I printed this with a 0.4mm nozzle at 0.3mm layer height, and it took around 13 hours. No support is needed for this print.
