Summary

remix of gnoms split up for 3D-printing

This is mishkin2's Gnoms converted to 3D and then cut up with puzzle tabs to re-assemble them with. I've made them .2" (5.1mm) thick with a .2mm clearance with a 12 degree draft.

Scale as needed the largest is about 4" (100mm) tall

Note: I have not printed this because I printed Gnoms (what I feel) in a less successful way
