Summary

Increased stability and added another fit for toothpaste support.

After using the V2 for some time, I've figured that the model is a bit unstable, and the tooth brushes had a tendency to slip from the hexagon grid, I also had the need to add another toothpaste holder. So, I've tried my best to improve the model in regard to the flaws and needs I had.

Since I think this mod may interest some, I've added the 2 toothbrush and 1 toothpaste option.

Supports are required, I advise using snug supports.
