Summary

This fits inside the LOTR LCG expansion boxes to keep your cards organized without using a separate container.

Made this organizer insert box for the Lord of the Rings LCG saga expansions to fit sleeved cards. It snugly fits the 8 inch by 8 inch saga expansion boxes. The box lid doesn't close much as you can see, but the top stays on unless you really tip it. I don't like laying the cards down flat as it makes them hard to sort and get out easily, so this was an ok sacrifice for me.

It's in 1 piece and the Ender 3 can print this in one shot. With the settings I used it was a 22 hour print.
