Spiral vase coin case.

Check print settings. bit difficult to print .

You can buy here for Japanese. <https://minne.com/@newspeak>

Print Settings

Printer:

Snapmaker Original

Rafts:

No

Supports:

No

Resolution:

100~400

Filament: Any TPU you can print TPU as you like

Notes:

Spiral vase mode.
Line width 800um

For easy printing, you could use harder TPU.95A or 60D.

You should adjust filament flow late for snap-fit and soft TPU print.

110~130%

Check tool-pass before print .

PrusaSlicer is better for this.
