Wanted to hand a 10x12 inch frame picture on my Skadis peg board. So I made this hanger that uses a M3x12 Button head screw for the support peg. Using the M3 screw allows to adjust the length the screw protrudes depending on the hanger depth on the picture frame. The hole is designed for the M3 screw to grip the sides to hold it.

Cara Dune picture made by TSWG, check it out here: <https://www.etsy.com/shop/theartofannatswg>
