updated 14. 2. 2022 | published 14. 2. 2022

## Summary

My first design , Simple vase with hearts , modeled in Fusion 360

[Household](#) > [Home Decor](#)

The first print i have designed from scratch , printed at .2 layer height with 4 perimeters for strength and 20% infill. I'm sure other settings will be fine too. The .3mf file includes supports.
