A simple napkin holder, designed to be printed in place with no supports.

I suggest printing with PETG for moderate flexibility, though as you can see from the picture, that will make it a bit more "boogery"

Can be scaled up to fit your napkins better. The default is for IKEA's 30x30cm napkins, though I wish I'd actually made it a bit bigger. I'd probably print at 125% scale if I were you.
