Mod for the Cheerson CX10 & Hubsan Q4 mini quadcopters.

The mod turns the mini quadcopter in to a rolling RC Vehicle which looks like a sort of Star wars Tie Fight.

Whether you have the CX10 or Q4 both models fly well with this mod added. The only thing I found was when adding this mod to the Q4 caused the flight time was reduced quite a bit due to the extra weight. With the CX10 there is no reduction in flight time.

I will be uploading videos soon

What you need to print

For the Hubsan Q4 print the following:

2 x Wheel80mm.stl

2 x Washer3_2mm.stl

1 x Hubsan_Q4_bracket.stl

For the Cheerson CX10 print the following:

2 x Wheel80mm.stl

2 x Washer3_2mm.stl

1 x Cheerson_CX10_bracket.stl

Addition thing needed

For both models you also need a thin drink straw (Dimensions 3.2mm diameter x 12mm Long) This is used as the wheel axle. You get free with juice cartons

If needed you can buy them in bulk from [http://www.ebay.co.uk/itm/Black-5-Thin-Kids-Cocktail-Sip-Straws-Choose-100-200-300-400-500-FREE-P-P-/282065958286?](http://www.ebay.co.uk/itm/Black-5-Thin-Kids-Cocktail-Sip-Straws-Choose-100-200-300-400-500-FREE-P-P-/282065958286?var=&hash=item41ac70f58e:m:mZvvoicqHzmP5lJoKoAw02A)
