Tags: [magic](#) [boardgamecomponents](#) [whirlingwitchcraft](#)
[playerboard](#)

This is a replacement or an additional player board for the board game Whirling Witchcraft. The board is much more compact than the original, play horizontally or vertically, perfect for small tables or pub games. All cubes lie in recesses which keep them in place.

The STL is made for easy multi-colour printing (choose to split the STL into parts) even on non-multi-material machines in up to seven colours. A layer height of 0.2 mm is recommended.

I have created more custom components for Whirling Witchcraft. Checkout my cauldrons and box inserts (for up to seven players) at <https://www.prusaprinters.org/prints/126690-cauldron-for-whirling-witchcraft> and <https://www.prusaprinters.org/prints/128866-box-insert-for-whirling-witchcraft>.
