Organizer insert that fits into Barkleys mint tins. (Or other tin with same dimensions, ~90mm x ~60mm)

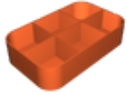

These have 4, 6 and 8 slots but I have also included a blank version if you would like to make your own compartment layout.

The exact dimensions of the insert are 55x89.5x20 mm with corner radius of 12 mm. With these dimensions the insert is just a tiny bit loose inside the tin. If you would like the insert to not rattle/fall out, scale it up by 0.5-1mm (~1-2%). Or measure your tin and adjust the "Scale factors: x y z" until the "Size: x y z" values match your tin measurements.
