Summary

Adding a Logitech mount to the arm. fine. A very dirty construction as it glues a solid and a mesh on the printbed

[3D Printers](#) > [3D Printers - Upgrades](#)

not much to see. Print and use if you have an old webcam.

Before inserting the cam, open it and adjust the focus. It also helps to remove the folding mechanism, remove the tiny screw in the bottom.

If you attach LEDs make sure to dim them down! Or you will barbecue them rapidly.
