I ran out of dividers for my Plano parts organizer (also for tackle) and designed this divider.

Its printed in PLA and fits tightly in the slots of the organizer. It fits the Plano 3700 line of boxes. I use my Plano 3700 boxes to store all kinds of screws, bolts, nails, washers, fasteners, felt pads, and picture frame hanging hardware. I made racks which allow the tray to individually slide into the rack. See the photo.
