My friends and I like to play the card game Rook. For 2017 we selected the best player and I created this trophy. You can use this design to create your own trophy by cutting off the Rook bird and putting your own object in its place. I've included various STLs with different amounts of writing on the slab.

You must print the Rook Trophy with supports all around the bird. I used PLA at 200C on a 50C bed.

The crow or in my case rook came from this Thing: <https://www.thingiverse.com/thing:182120>
