This is a remix of thing 1812257. I added caps. One is blank and the other has a name on it. To see how to add your name, check out my thing here:

<http://www.thingiverse.com/thing:2294134>

Create the name and then add it as an inset on the blank cap. If you want to learn how to combine the two STLs, checkout TinkerCAD and its import STL function.

I printed the name cap with the name facing up and supports under the cap. Otherwise the caps can be printed facing down.

Caps may be placed on all four bearings if you like.
