updated 15. 2. 2022 | published 15. 2. 2022

Summary

Completely customizable tool holder for mk3/s/+ utilizing pegboard for the tools

[3D Printers](#) > [Accessories](#)

Tags: [tool](#) [mk3](#) [holder](#) [mk3s](#)

(Originally made back in 2018 on thingiverse, porting to PrusaPrinters.org)

Not everyone has the same needs for a tool holder, so why be constrained?

Customize to your specific needs by attaching pegboard to your mk3 in a safe, convenient spot.

Two Sizes

- One stl with 12 rows of holes
- One stl with 8 rows of holes

Installation

Just like the filament spool holder, but sideways. Angle the part into position until it snaps into place.

Things To Print

Here are some favorites on thingiverse:

- Pegboard Hyper Organizer: <https://www.thingiverse.com/thing:1626726/files>
- Caliper Holder: <https://www.thingiverse.com/thing:1779862>
- Pegboard Clip: <https://www.thingiverse.com/thing:1533656>
- Plier Holders: <https://www.thingiverse.com/thing:2847849/files>

The list goes on and on, **there are even beer holders (bad idea?!)**

Notes For A Fast Print:

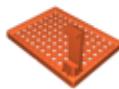

For a fast print (< 2.5 hours), use a .6 nozzle with a .4 layer height.

Model files

mk3pegboardrackv2_8row.stl

☐ 8 Row, compact size

mk3pegboardrackv2_12row.stl

☐ 12 row, larger size
