## Summary

Adafruit 3.5 PiTft with Pi 3B Enclosure

[Gadgets](#) > [Other Gadgets](#)

Tags: [adafruit](#) [pitft](#) [magicmirror](#)

I can't find any decent enclosure for Adafruit 3.5 PiTft with Pi 3B. So, I decided to make one. To display MagicMirror stuff like weather, news feed, upcoming calendar events.. etc on my desk.

You can find more information about MagicMirror here posted by Andrea:

<https://www.hackster.io/scozzy/magicmirror-alarm-clock-146233>

I printed using PLA

2.0 Layer Height

No Support Needed

Print using the orientation shown in the .stl file. Enjoy!
