Summary

AUDI logo keyring (inspired by old AUDI logo)

[Gadgets](#) > [Other Gadgets](#)

Tags: [logo](#) [keyring](#) [audi](#) [3dlogo](#)

The model is printed in two separate parts. First, print the part named "**insert_1_audi_keyring**", then print "**main_body_audi_keyring**". When printing the main element, do not **forget to pause** so that you can put the insert inside. Additionally, you can **change the color** to highlight the wheels in the AUDI logo. The whole thing is printed with a **0.25 nozzle** with a **height of 0.1mm for layers**. Do not forget to compensate for the "elephant foot" so that the insert fits easily into the right place.
