Yet Another Nema 23 Motor Cover

I designed this Nema 23 motor cover for my build of a portal CNC milling machine (Volksfräse). The cover is as flat as possible to still fit the GX16 aviation plug sockets. Screw holes are countersunk and fit OMC steppers.

BOM:

1 x Printed Cover (PLA or PETG is fine)
1 x GX16 aviation plug jack
4 x M3 x 15 screws

For a flatter design for the Z-Axis please see my other print.
