### Yet Another Flat Nema 23 Motor Cover

I designed this Nema 23 motor covers for the Z-axis stepper of my build of a portal CNC milling machine (Volksfräse). The cover is as flat as possible by fitting the GX16 aviation plug jack on the side of the stepper. Screw holes are countersunk and fit OMC steppers.

BOM:

- 1 x Printed Cover (PLA or PETG is fine)
- 1 x GX16 aviation plug jack
- 4 x M3 x 8 screws

For a different design for the X/Y-Axis please see my other print.
