Cuphead and Mugman are here! Whether you rage quit the game, or love the punishment, one thing is for sure, Cuphead is a beautiful game. So I was very excited to try to bring these two to life.

I created the models in ZBrush. I used ZSpheres to create the main body, then I used spheres and the new Boolean features to create the cup part of the head. After I had Cuphead created, I could just make a few adjustments to turn the model into Mugman.

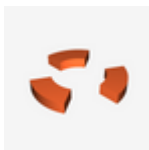

Then I printed them out on the Prusa MK2S with Polysmooth filament. Then we put them in the Polysher. After that Chelsey did her magic involving sanding, priming and painting.

Printers: Prusa i3 MK2S
Filament: PolySmooth
Layer Height: 0.1mm
Supports: Yes
Modeled in ZBrush
