It's finally time for more Rick and Morty! This time we have Jerry for you. Mr Poopybutthole will be hot on his heels though.

I created this model in ZBrush using mostly ZSpheres for the body shape. I used the Extract tool to get the clothing. And I sculpted most of the face details using spheres and dynamesh.

Then I printed it on the Peopoly Moai using the Peopoly resin. It came out really good. Then Chelsey did some light sanding and painted it. She did an amazing job and this is going to look awesome next to Rick and Morty on my shelf.

Printer: Peopoly Moai
Resin: Peopoly Neon Green
Layer Height: 0.1mm
