Summary

Heater for Tukkari Case MK3s+

[3D Printers](#) > [3D Printers - Upgrades](#)

Tags: [heater](#) [prusai3mk3s](#) [tukkari](#)

I've had the issue that i had not enough temp in my tukkari-Case, beause i'm printing in a room with 16 degree.

For printing ABS I wanted to have at least 40 degree, with the heater I have now 40 degree in 7 minutes.

So i designed a heater for my tukkari case with controller

You can everthing see on my pictures , if questions please ask

Below the links for the components i used:

Switch: <https://amzn.to/35NEHgN>

Control-Unit: <https://amzn.to/34xa7XW>

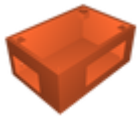

Heater: <https://amzn.to/3J6qSbH>

Hope you enjoy it
