THIS IS OUT DATED GO TO THE NEW VERSION <https://www.thingiverse.com/thing:4095702>

The FDL-3 was originally designed by Project FDL <https://www.projectfdl.com>

Please download the ZIP File its organized

This is designed for multicolor printers (Dual Nozzle or Prusa MMU, Palette)

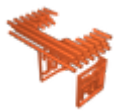

So far only the 40rd Nose and Auto Tail are done.

I most likely wont be updating or adding other Nose and Tails on as my MMU2 is not working. Step files are up Tail is spilt into V1 and V2 you need both, V2 has Underbelly, Cap Rear, and PCB Holder updated.

The FDL-3 was originally designed by Project FDL <https://www.projectfdl.com>
