Summary

Clip for your hyper x module headphone.

I designed a clip that you can glue or screw to the underside of your desk so you can have your headphone module at the front of your desk for easy access. It is a great combi with my other Hyper X headphone holder that also glues under the desk, here is a link: <https://www.prusaprinters.org/prints/111494-headphone-holder-beside-desk-top>

Happy printing and using!
