A painting handle for 15-25mm based models. The clips that grip the mini bases are narrow for good painting access to the underside of models. However topples over easily being so narrow, consider looking at the remix

Printed at 0.2 thickness and 10% infill and no supports. 20-30 minutes.

2 or 3 walls with 0.4mm nozzle. But it should work with a variety of settings.

Update 2022/02/26: Improved clip by adding small edge to grip the mini bases

Update 2022/03/19: Added larger sizes in steps of 5mm

Update 2022/06/05: Slight adjustment to the edge of the grip/clip
